Dear Parent/Carer

Year 11 Revision Guide Book

In order to maximize the time students spend on practical and design activities, we are suggesting students buy a copy of this revision guide. It covers all the required subject knowledge in appropriate depth. Using this book to supplement demonstrations and presentations in the workshop will allow students to undertake homework tasks to consolidate their subject knowledge and will allow maximum use of workshop time to gain the practical experience required to design and make efficiently.

The following details are copied from the publisher's website:

"Written for 2011 curriculum, Essentials provides concise coverage of all the externally assessed course content and skills for GCSE Resistant Materials. The other five subjects are also available: Electronic Products, Food Technology, Graphic Products, Product Design and Textiles Technology.

The student-friendly, uncluttered approach guides students through the core content with succinct revision notes and practice questions that focus on the essential content needed for the exams:

- Short sentences, focused paragraphs and bullet points help to make the content accessible to students of all abilities
- Key words and concepts are highlighted to aid memory and recall
- Relevant diagrams and illustrations clarify key points and aid visual learning
- Practice questions at the end of each section test and reinforce understanding
- Quick Test and Key Word summary at the end of every spread.

The book retails at £4.99, but the school is able to offer them at £3.50, which I hope you will agree is a small price to pay for such a valuable learning resource.
