8<sup>th</sup> February 2018

Dear Parent/Carer,

### **Year 12 and 13 Physics**

Your son/daughter recently sat the January Physics mock exam and failed to achieve their target minimum grade (TMG) by one or more grades. As a result of this they are being put on Stage 1 of the Sixth Form's Monitoring Programme, as this is a cause for concern for the summer exams.

As part of our support for your son/daughter we are offering an intervention programme that we would like them to engage in. This programme involves various resources and tasks that will be available on Fronter. Students are expected to complete these tasks and will be reassessed after the programme has finished.

The programme will start on Friday 9<sup>th</sup> February. The students need to complete the work set over the following 3 weeks, using all the available material and the mark schemes that accompany the work, and seeing the relevant teachers if they encounter any problems.

Another assessment will then be given on Friday 9<sup>th</sup> March, where students will hopefully achieve their TMG and come off Stage 1. Otherwise they will be moved on to Stage 2.

If you have any questions or concerns, please feel free to contact me at the school. My email address is [tjackson30.312@lgflmail.org](mailto:tjackson30.312@lgflmail.org), or alternatively you can contact me by phone 01895 639227 ext. 656.

Yours faithfully,

**Dr T Jackson**  
**Head of Physics**
